SMK
MULTISTRADA V4

A LEGACY OF PROTECTION. A FUTURE OF POSSIBILITIES.

Our journey began more than 50 years ago with a simple ambition: to create helmets that give riders the confidence to go further. From humble beginnings in a small garage in India, we have grown into a global force in helmet manufacturing — driven by a passion for innovation, uncompromising quality and a deep understanding of what riders demand.
SMK is building on this legacy with a clear vision for the future — expanding our horizons, accelerating innovation and bringing new possibilities to riders around the world.

Innovation is at the heart of this journey. Our advanced in-house design and development capabilities, extensive manufacturing expertise and dedicated testing facilities give us control across the entire product cycle — from the first idea and tooling through manufacturing and rigorous testing. This depth of expertise allows us to continuously raise the bar and bring new technologies and designs to riders faster.

Our global presence continues to grow, with SMK helmets now reaching riders in more than 70 countries around the world. Our entry into the FIM Road to MotoGP™ ecosystem through the Moto4 Latin America Cup marks an exciting new chapter in SMK's racing journey. Racing is an integral part of our DNA, pushing us to continually challenge ourselves in the pursuit of performance, protection and innovation. This is just the beginning — with an exciting racing roadmap ahead and many more developments to come as we strengthen SMK's presence on the international racing stage.

But our greatest inspiration remains the rider.

Whether you're chasing a lap time, exploring an open road, commuting through the city or simply enjoying the freedom of two wheels, SMK is committed to being part of your journey. We are designing for a new generation of riders who expect more — stronger safety, smarter technology, distinctive design and uncompromising quality.

With more than five decades of manufacturing expertise behind us and an exciting future ahead, SMK is not simply following the evolution of riding — we are helping shape it.

We invite you to ride with us into the future.

Sidhartha B. Khurana

SMK Titan Racing is built to perform on track. This racing helmet is made from Premium Carbon Composite Fiber Technology (PCFT) for a lightweight yet strong shell to deliver a safe and comfortable riding experience. Its Multi-density EPS delivers superior impact absorption, and the double D ring strap ensures a secure fit.

SMK Titan Racing features a quick-release, scratch-resistant visor with tear-off compatibility for a clear view. The aerodynamic spoiler of the TITAN RACING reduces wind drag and ensures stability at high speed. Its emergency removable cheek pads facilitate the removal of the helmet in case of an accident, while the breathable hypoallergenic and washable liner ensures all-day comfort in any conditions.

Double P/J certified, it meets the highest safety standards for both full-face and open-face use. The 180° rotating chin guard allows effortless opening and closing, while the wide anti-scratch visor featuring the Pinlock®70 antifog lens ensures clear vision in all conditions. Multi-density EPS and advanced airflow channels deliver superior impact absorption and ventilation, complemented by a removable hypo-allergenic liner.

Its speaker pockets in the EPS ensure a perfect integration of the communication system. Safety features include the emergency removable cheek pads and a stainless-steel micrometric ratchet, making the Cygnus ideal for touring or daily commuting.

The SMK GTJ is a stylish and elegant open-face helmet created for tourers and urban riders who appreciate fine details. Offered in two shell sizes for a precise fit, it provides lasting comfort on long rides. Its sleek profile, modern graphics, and bold solid colors strike the perfect balance between style and practicality.

Equipped with a wide anti-scratch visor, the GTJ ensures clear visibility and safety, while the retractable internal sun visor can be operated with ease for changing light conditions. A well-designed ventilation system with multiple air vents and rear exhausts maintains steady airflow, making the GTJ the right choice for both daily commuting and long-distance touring.

Premium Carbon Composite Fiber Technology

Energy Impact Resistant Thermoplastic

1 Shell - 2 Shells - 3 Shells

Multi Density EPS:
Provides maximum all-round head protection during any unfortunate impact

Top Air Vents:
Provides rider with fresh air while riding, aiding rider comfort

Chin Air Vents:
Air intakes on the chinguard of the helmet for increased air flow on the rider's face while riding, aiding to rider's comfort

Hot Air Exhaust:
Helps in directing hot air within the helmet outwards for rider comfort during extended usage

Channeled Exhausts:
Movement of air through the liners provides maximum comfort to the rider during extended usage

Scratch Resistant Visor:
Protective layer coated for preventing scratches on visor during regular use, maintaining visibility and safety

Quick Release Visor:
Convenient to the rider for easier changing visors when required

Pinlock®70 Fitted:
Patented Pinlock technology for prevention of visor fogging during ride in cold and humid weather

Pinlock®70 Ready:
Patented Pinlock technology for prevention of visor fogging during ride in cold and humid weather

Dual Visor System:
Retractable visor, reduces the sun glare without replacing visors providing safety and comfort while riding

Breath Deflector:
Deflects moist air, due to breath, away from visor, maintaining rider visibility

Wind Protector:
Protects the rider from cold air while riding, helping the rider's comfort and reducing noise

Stainless Steel Micrometric Chin Strap:
For maximum ease of releasing the strap under the chin

Double D Ring Chin Strap:
Secure & adjustable closure system for chin strap providing enhanced safety

Padded Comfort Chinstrap
Prevents breakage of strap, providing maximum protection during any unfortunate impact

Removable & Washable Liner:
Ability to remove and clean the liners for maintaining freshness over time

Moisture Management Antistatic Fabric:
Absorbs and evaporates sweat faster from riders face, increasing comfort during extended usage

Breathable Liner:
Breathability causes more air flow inside the helmet liner and as a result faster evaporation of sweat in the helmet liner

ECE22.06 Certified

DOT Certified

P/J Certified:
Dual certification of the helmet providing maximum safety while using the helmet as an open face or full face helmet

Emergency removable cheek pads:
In the event of any unfortunate incident, cheek pads can be removed quickly for easy and safe removal of helmet, protecting rider from further injury

Hypoallergenic Liner:
Protects rider from allergies or infections arising from continuous contact with damp helmet liners due to extended riding or on hot/rainy days

Speaker Pockets:
Small enclosure underneath the cheekpad to hold speakers and provide convenience

Eye Glass Easyfit:
Securely holds eyeglasses while riding

Anti-mist Visor Position:
Optimal placement of the visor to prevent fogging

Visor Lock 'n' release System:
Secures the visor in place during riding and enhances safety

Aerodynamic Spoiler:
Designed to improve aerodynamics and reduce drag

Enhanced Airflow System:
Provides enhanced cooling & ventilation during long rides

One Touch Quick Release Visor:
Fast & effortless visor removal/installation

Micrometric Chin Strap:
For maximum ease of releasing the strap under the chin

Open Mesh & Group Mesh:
Connects upto 24 riders via dynamic mesh network, line-of-sight range upto 2000m

AI Noise Cancellation:
Uses DSP + CVC + AI technology to cut background noise for crystal-clear calls.

HD Speaker:
Powerful 40mm speaker delivers rich, HD sound for every call.

FM Radio:
Plays built-in FM radio on the go.

Dual Connection:
Stays connected to your phone and an external GPS device simultaneously.

Bluetooth®Intercom:
Pairs one-to-one with other bluetooth intercom brands.

Voice Assistant:
Activates your smartphone's voice assistant with a long press of the knob.

Auto Answer:
Answers calls automatically or manually, as you prefer.

Glove Friendly Knob Control:
Easy, intuitive controls without removing your gloves.

1000mAh Battery:
Delivers extended power for longer rides and uninterrupted connectivity.

IP67 Water Resistant:
Keep your device safe from water and dust.
