Technical File:	**DC-19646**
Test report:	**RCT n° 4406095/E**
Functions and performance levels:	The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities. This PPE item has reached the following performance: **Class A(*):** Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties. **(*)**: The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments. NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.
Marking:	printed on stitched labels and displaying the following information: - **CE Marking;** - registered trademark of the Manufacturer; - item designation (article name); - pictogram to indicate the motorcycle use, class of protection achieved, nr./year of the European Standard; - pictogram instructing to read the User Manual; - size indication; - material composition, care/washing symbols and instructions, warnings.
