EU Type Examination Certificate

Date: 2025/06/17 | *n.* **1097252501/OE** | Validity: 2030/06/16

Functions and performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.
This PPE item has reached the following performance:
Class A(*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(*): The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.
NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

printed on stitched labels and displaying the following information:
- **CE Marking;**
- registered trademark of the Manufacturer;
- item designation (article name);
- pictogram to indicate the motorcycle use, class of protection achieved, nr./year of the European Standard;
- pictogram instructing to read the User Manual;
- size indication;
- material composition, care/washing symbols and instructions, warnings.
